

Zehnder Fare Tech

Electric operation

Product data sheet

always the best climate

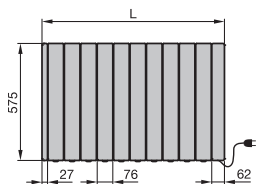

Zehnder Fare Tech is an electric radiator that combines aesthetics and intelligence through an elegantly curved shape and seamless integration of the remote control device. Its heating programs make efficient heating a simple matter. Available in almost any colour and finish from the Zehnder colour chart.

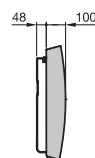

Advantages

- Intuitive remote control device makes operation simple
- Simple operation due to pre-defined and user definable heating programmes
- Energy-efficient and comfortable heating with innovative “open window detection”
- Operation as needed with energy consumption indicator
- H bracket with integral spirit level for easy installation
- High energy efficiency due to compliance with the European Ecodesign Directive reduces energy costs
- Low energy consumption of only 0.5 W in stand-by mode for increased energy efficiency
- Presence detection reduces energy by automatically reducing the temperature when you are away
- Aesthetically pleasing design with perfectly integrated control panel including backlit display
- Increased safety with keylock
- More comfortable operation thanks to the possibility to steer the product through the Zehnder Connect App
- Advanced convenience by creating specific zones at home to manage several products at the same time
